

Pratik Dev

Full Stack Web Developer with over 4 years of experience in building scalable web applications using modern technologies like Next.js, Golang, MongoDB and PostgreSQL. Passionate about creating user-friendly interfaces and efficient backend systems. Seeking opportunities to contribute to innovative projects in a collaborative environment.

Personal Information

- **Email:** pratikdevofficial1@gmail.com
- **Socials:** [GitHub](#), [Twitter X](#), [LinkedIn](#)
- **Address:** Chattogram, Bangladesh

Education

- **B.Sc. in Computer Science and Engineering**
 - **Institution:** BGC Trust University, Chattogram, Bangladesh
 - **Duration:** 2022-2023
 - **Result:** Dropout

Skills

Technical Skills:

- **Languages:** TypeScript, JavaScript, Node.js, Golang
- **Frameworks:** React.js, Next.js, Express.js
- **Frontend:** Tailwind CSS, ShadcnUI, Framer Motion, Bootstrap
- **Databases:** Drizzle ORM, MongoDB, MySQL, SQLite, PostgreSQL
- **Technologies:** Appwrite, Firebase, Supabase, Convex, Docker, Vercel
- **AI Agents:** Codex, Claude Code, Opencode
- **Tools:** Git, GitHub, VS Code, Postman
- **Additional Tools:** Notion, Trello, Linear, Figma, Canva

Soft Skills:

- **Communication:** The ability to clearly express ideas, listen actively, and engage in meaningful conversations.
- **Teamwork:** Working well with others, collaborating on shared goals, and contributing to a positive group dynamic.
- **Problem-solving:** Identifying challenges, analyzing them, and finding effective solutions.
- **Time Management:** Prioritizing tasks, meeting deadlines, and organizing your workload efficiently.
- **Adaptability:** Being flexible and open to change, adjusting easily to new situations.
- **Creativity:** Thinking innovatively and approaching problems with fresh, original ideas.
- **Critical Thinking:** Evaluating information objectively and making well-reasoned decisions.
- **Work Ethic:** Showing dedication, reliability, and a strong sense of responsibility.

Projects

Front-end Projects

- [Hello World Communications](#)
 - **Description:** A landing page for a IT solutions company.
 - **Tech Stack:** Next.js v15, ShadcnUI, Tailwind CSS, TypeScript, Framer Motion, Zod
 - **Challenges:** Implementing dynamic content and ensuring fast loading times
- [Kar Communication](#)
 - **Description:** A landing page for a IT solutions company.
 - **Tech Stack:** Next.js v15, ShadcnUI, Tailwind CSS, TypeScript, Framer Motion, Zod, Firebase, React Query
 - **Challenges:** Implementing dynamic content and ensuring fast loading times.
- [Bombus Landing Page](#)
 - **Description:** A landing page for a Norwegian Bumblebees company.
 - **Tech Stack:** Next.js v15, ShadcnUI, Tailwind CSS, TypeScript, Framer Motion, Zod
 - **Challenges:** Creating a visually appealing design and optimizing performance.
- [Osilion Landing Page](#)
 - **Description:** A landing page for a IT solutions company.
 - **Tech Stack:** Next.js v15, ShadcnUI, Tailwind CSS, TypeScript, Framer Motion, Zod
 - **Challenges:** Implementing responsive design and ensuring cross-browser compatibility.
- [Gravity Gym](#)
 - **Description:** A landing page for a fitness center.

- **Tech Stack:** Next.js v15, ShadcnUI, Aceternity, Tailwind CSS, TypeScript, Framer Motion, Zod
 - **Challenges:** Creating an engaging user experience and optimizing performance.
- [Pierra](#)
 - **Description:** A landing page for a exterior architecting company.
 - **Tech Stack:** Next.js v15, ShadcnUI, Tailwind CSS, TypeScript, Framer Motion
 - **Challenges:** Designing a visually appealing layout and ensuring fast loading times.
-

Full-stack Projects

- [Roadmap App](#)
 - **Description:** This is a full-stack roadmap application that allows users to view, upvote, filter, sort and comment on roadmap items.
 - **Tech Stack:** Next.js v15, Tailwind CSS, TypeScript, Zod, Drizzle ORM, PostgreSQL, Vercel
 - **Challenges:** Implementing user authentication and managing state effectively.
 - **Future Plans:** Add user profiles, downvoting on posts, upvoting and downvoting comments, and a dark mode toggle.
 - **Source:** <https://github.com/PratikDev/roadmap-app>
 - [Narrative Guard](#)
 - **Description:** Narrative Guard helps teams audit content against their brand constitution before publishing.
 - **Tech Stack:** Next.js v15, Tailwind CSS, TypeScript, Zod, Convex, Gemini, Vercel
 - **Challenges:** Designing a trustworthy AI/RAG audit flow with explainable scoring, workspace permissions, and reliable brand-specific context retrieval.
 - **Future Plans:** Add automated tests, richer analytics, email invites, batch audits, shared reports, and CMS/social publishing integrations.
 - **Source:** <https://github.com/PratikDev/narrative-guard>
-

Backend & CLI Projects

- [URL Scraper](#)
 - **Description:** A terminal-based URL scraper that extracts URLs from a given link.
 - **Tech Stack:** Golang
 - **Challenges:** Handling invalid URLs, avoiding duplicates, and implementing concurrency with goroutines and mutex locks.
 - **Future Plans:** Add a web interface using React.js or Next.js.

- [Tasks](#)
 - **Description:** A command-line Todo app built with Go.
 - **Tech Stack:** Golang
 - **Challenges:** Storing tasks using CSV files.
 - **Future Plans:** Develop a web interface and add reminder features.
- [URL Shortener](#)
 - **Description:** A simple URL shortener using Go and MongoDB.
 - **Tech Stack:** Golang, MongoDB
 - **Challenges:** Generating unique short URLs using MongoDB's Object ID.
 - **Future Plans:** Add expiration dates and custom short URLs.
- [The Super Tiny Compiler](#)
 - **Description:** A minimal compiler built from scratch using Go.
 - **Tech Stack:** Golang
 - **Future Plans:** Still need to add the very last step - Code Generation
- [TreeEx](#)
 - **Description:** CLI tool that analyzes directory structure and outputs a JSON tree.
 - **Tech Stack:** Bun, Typescript
 - **Future Plans:** Let user pass ignore, include list as txt files and svg/png generation argument

Experience

- **Freelancer** (2021 - Oct 2023)
 - **Description:** Worked on various projects, building the frontend and backend of web apps and APIs.
 - **Link:** [Fiverr Profile](#)
- **Full Stack Web Developer** at **Bilsida** (Oct 2023 - Aug 2024)
 - **Description:** Developed the frontend and backend of web apps and APIs for a Swedish car marketplace startup.
 - **Tech Stack:** Next.js, Tailwind CSS, ShadcnUI, TypeScript, Appwrite, Docker
- **Full Stack Web Developer** at [Hello World Communications](#) (Sep 2024 - Jul 2025)
 - **Description:** Building the frontend and backend of web apps and APIs for a Software Development agency.

- **Tech Stack:** Next.js, Tailwind CSS, ShadcnUI, TypeScript, Drizzle ORM, Appwrite, Firebase, Docker
- **Frontend Engineer** at [Hone](#) (Aug 2025 – Sep 2025)
 - **Description:** Built and maintained the frontend of both the Web and Desktop application of Hone.gg, focusing on clean UI, performance, and scalable component architecture.
 - **Tech Stack:** ReactJS, Tailwind CSS, ShadcnUI, TypeScript
- **Fullstack Engineer** at [Osilion](#) (Oct 2025 – Feb 2026)
 - **Description:** Built and maintained full-stack features at Osilion, contributing to their intelligent recruitment platform and end-to-end product development.
 - **Tech Stack:** Next.js, TypeScript, Azure, PostgreSQL, Tailwind CSS, ShadcnUI
- **Software Engineer** at [Devspace](#) (March 2026 – Present)
 - **Description:** Working on AI-powered features at Devspace, helping build and scale web applications while contributing across the entire product lifecycle.
 - **Tech Stack:** React, TypeScript, Mastra AI, Convex, OpenCode, Vercel AI SDK, Gemini

Additional Information

- **Languages:** English, Bengali
- **Hobbies:** Reading, Writing, Coding, Discussions
- **Interests:** Technology, Astronomy, Physics, Philosophy, Fashion, Science, Movies, Psychology, History
